

## Elegant VT

### Supply diffuser for wall mounting

Systemair Elegant VT is a new supply diffuser for wall mounting. Due to its short length the diffuser can be mounted directly in a T-piece or pre-embedded bend.

Elegant VT is specially developed for providing a draught-free air supply from the rear walls of apartments, offices, hotel rooms etc.

The diffuser is manufactured from steel and consist of a convex front plate with

perforations. With the pressure distribution plate in the back of the diffuser, the air flow can be adjusted by using different number of plastic plugs, see diagram. Elegant VT is available in two sizes,  $\varnothing 100$  och  $\varnothing 125$ .

With help of two friction springs in the back, the Elegant VT is easily installed directly onto the spiral duct, T-piece, bend, spigot connection or sleeve.
